

Vicus Way Car Park

PROJECT SUMMARY:

Berry Systems supplies car park exterior cladding finish and install Vehicle Restraint Systems to Maidenhead's Vicus Way Car Park.

THE CHALLENGE:

- To design and install an exterior cladding finish to the newly constructed and iconic Maidenhead car park
- To deliver a vehicle restraint system throughout the internal construction
- To provide bespoke advice, design, and installation services
- To ensure timely delivery and exacting project specification.

Vicus Way Car Park

THE SOLUTION:

- The design and installation of an exterior cladding system which complimented surrounding architecture and which met the design requirements of the new construction
- The installation of vehicle restraint system barriers throughout the internal carpark construction and which included Berry's unique System 3 impact protection columns
- The installation of System 3 non tensioned steel bars anchored to the structural steel columns and designed to reduce impact
- High-quality deliverables, on time, in budget and in line with the client's overall project delivery schedule.

KEY ACHIEVEMENTS:

- Strong supply chain relationships with partners working on the project
- A reputation of supplying professional services and expert design and installation consultancy
- A legacy of being part of a futureproof car park with features including 52 fast chargers for electric vehicles with the capacity to add further in the future.

Why Berry Systems:

- Over 50 years as an expert industrial solutions provider, offering a wide range of products and services including world class sustainable Car Parks, Vehicle Restraint Systems, Cladding and Facades
- Industry leading engineering and project management teams
- Continuous innovation – always keeping customers at the forefront of technological advances to ensure products and services meet the challenges of continuous development
- Commitment to quality through the membership and accreditation of major industry organisations such as The British Parking Association, The Building Safety Group, Acclaim Accreditation and as an accredited contractor for CHAS.
